

Health and Safety Impacts Your Most Important Resource – Your Workers

A well-structured Work Health and Safety Management System (WHSMS) can assist in reducing the risk of incident or injuries while protecting your company against the possibility of unnecessary financial outlay.

Truly effective safety programs are developed using good management practices that are integrated into – not separate from – your overall management strategies in order to protect your company's liability, your personal liability, and your employee's safety.

The Benefits of a Drake's WHS Management System:

- Full compliance to the WHS act and regulations
- A user friendly, online ordering system
- A WHSMS solution, tailored to your company with flexibility to meet your individual business needs
- Quick implementation timeframes
- Straight forward and up to date documentation and information
- Cost-effective
- Ongoing and after sale support

Receive the standard WHSMS package for only \$2,450 plus GST.

Contact Stephen Fletcher and take steps today to ensure your organisation's WHS are compliant, effective and sustainable.
