

“Supply Chain – Farewell Silos”

Creating a Seamless Supply Chain, Collaboratively

PROFESSIONAL DEVELOPMENT PROGRAM

Stephen Hanman will be delivering the first day of a 3 part series that will make up the SC2020 Program.

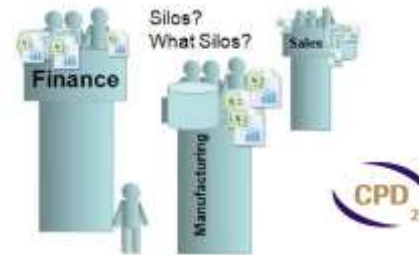

WHO SHOULD ATTEND?

Any person involved in the supply chain especially Leaders, Managers, Team Leaders and Supervisory Staff.

COURSE OUTLINE

Developing a Seamless Supply Chain

- Understanding the past and the present re the SC development path,
- Mapping the path to the Future – SC2020. Seamless and Collaborative, and
- Building Constructive Interfaces – inside and outside the organisation.

OBJECTIVE

To provide an overview of the process of developing a Seamless Supply Chain and the value it delivers. To assess where you live on the Continuum between Competitive to Collaborative Supply Chains – includes both within your organisation and also with customers and suppliers. Identify where you want to be and detail the path to get there. Understand the tools for collaborative practice. The steps are **Now – Where – How** and this presentation will detail what you need to do.

FORMAT

Understand how seamless your supply chain is today. Identify how to make your SC more seamless. Learn how to apply an Interface Conversation. Understand how decision making will change in the seamless organisation. Combines Theory and Action.

DO A READINESS ASSESSMENT

Identify workplace culture and organisational system challenges in moving along the collaborative path. Understand Leadership and Management styles and how they impact on collaboration.

OUTPUT

To build a broad understanding and an action plan to create a more Seamless and Collaborative Supply Chain. Understand the value to your organisation.
