NOW**

Who should attend? Executives, Senior Managers, Front-line Leaders and decision-makers across all functions - targeting at those in Operations, Technical and Sales departments.

"Understanding how your day-to-day operations impact your business and its financials"

- Do your key employees and decision-makers struggle in making the right decisions that impact your P&L?
- Do most people have a basic understanding, supported by effective systems, to control and manage the flow of cash?
- Do they realise how everyday business activities affect the bottom-line (net profit) as well as the top-line (revenue growth)?

Take a sneak peek of the workshop held recently.

ALFRED ABLAZA is Australia's Authority on Operational Performance Through People Engagement. Recognised as a world-class Improvement Specialist, his twenty-six years' experience in various industries (manufacturing, logistics, service, government) gives him the ability to serve his clients and training participants to improve performance, reduce waste, elevate product quality, increase customer satisfaction, and develop people and culture.

His solid 20-year experience in Nestlé has given him a strong foundation for understanding the importance of business and financial acumen for its operations and their people.
