

Blackbay Breakfast Seminar:  
**Migrating From Windows Mobile  
to Android**

Cliftons Auckland,  
11th April 2017

Breakfast is on us!

**You're invited to attend the Blackbay Breakfast Seminar for a hands-on demonstration on how to migrate your delivery or logistics platform from Windows Mobile to Android.**

Why now? Because businesses all over Australia are achieving enormous returns by switching to Android for their handheld devices, from greater connectivity to improvements in driver compliance and reliability. Leading delivery companies are achieving scanning compliance rates of up to 98% track and trace capability – simply by upgrading.

**REGISTER**

Joining us will be industry leaders and Android experts **Peacock Bros and Zebra Technologies**, who will provide practical tips and tricks to help you fast track a successful and cost effective upgrade for your entire fleet.
